We export best quality Turmeric Finger, Turmeric Bulb & Powder. Turmeric is well known in India as “Haldi”. Turmeric is native to tropical Indian Subcontinent. Turmeric is a major part of Ayurvedic Medicine. India is the major producer of Turmeric.

Our prestigious clients can avail from us the finest quality Turmeric Finger that is highly admired for its high medicinal value, longer shelf life, pure composition and purity. The offered turmeric is cultivated by our farmers under utmost hygienic conditions without using chemical and pesticides. In addition to this, the offered Turmeric Finger also possesses several health benefits like curing skin problems, quickly healing wounds, etc. Our team of quality controllers tests this Yellow Turmeric Finger to ensure its purity. We are providing this product at pocket friendly prices to our clients.

Why Turmeric from India?

1. India is the largest manufacturer, consumer and exporter of curcumin, contributing to more than 80% of the global production.
2. Turmeric ranks third in the total exports of spices from India.
3. Indian curcumin, a substance found in turmeric is very effective and widely used in Pharmaceutical industry for treating critical ailments like cancer, food and cosmetic industries which is a major factor driving the growth of the global curcumin market.
4. Indian Turmeric is one of the most well-known, widely researched Ayurvedic Spices which is used across the Globe.
5. This rise in demand for curcumin is largely due to the growing awareness among consumers regarding its anti-oxidant and anti-inflammatory properties.

Why Curcumin Content is Important in Turmeric?

- Curcumin is an active ingredient found in Turmeric.
- Curcumin is an antioxidant that possesses hypoglycemic qualities and is effective for many healthcare uses.
- Turmeric Contains Curcuminoids which are bioactive compounds.
- Turmeric contains 1.5% to 9% Curcuminoids.
- 75% of these active curcuminoids are curcumin.

Curcumin is called as Star of turmeric. The higher the curcumin content, the better it is.

Which are the countries that import Turmeric from India?

Bangladesh, USA, IRAN, UAE, Malaysia, UK, Saudi Arabia, Germany, Morocco, Srilanka, Japan, Spain, Netherlands, South Africa, Tunisia, Iraq etc. etc.

What precautions needs to be taken while exporting Turmeric?

- Moisture- Important to dry the turmeric in hot sun and under expert supervision to zero down the chances of any fungus.
- Cleaning- Turmeric Raw fingers directly comes from farmers. Need to do manual cleaning to remove foreign particles and then into the machine under experienced person.
- Need to use Jute/Gunny bags for packing as it gives proper ventilation for turmeric finger. Preferable packing is 25 Kgs Jute bags
- Polishing has to be neat and avoid breaking of Fingers into pieces.
- Fumigation needs to be done twice when raw material enters into godown and also when it packed and enters into containers.
- Craft paper and Silica gel to be put into the container and keep third party quality specialist to inspect the container's health.
- Need to appoint reputed third party quality inspection agent to count the number of bags, quality till the time the container is sealed.
